

ORBCOMM ANNOUNCES FURTHER INTERNATIONAL REGULATORY EXPANSION

- Receives Authorizations in Nigeria, Singapore, Republic of Cyprus, and Mongolia -

Fort Lee, NJ, October 16, 2008 – ORBCOMM Inc. (Nasdaq: ORBC), a global satellite data communications company focused on two-way Machine-to-Machine (M2M) communications, today announced that it has received regulatory approval and authorization to provide its two-way satellite data communications services in Nigeria, Singapore, Republic of Cyprus, and Mongolia.

“Regulatory authorizations are important for our International Value Added Resellers (IVARs) and Original Equipment Managers (OEMs),” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “In most cases, our OEMs already have established sales and distribution channels in these markets. These territories also give us the opportunity to recruit new resellers in these markets.”

About ORBCOMM Inc.

ORBCOMM is a leading global satellite data communications company, focused on Machine-to-Machine (M2M) communications. Its customers include Caterpillar Inc., General Electric, Hitachi Construction Machinery, Komatsu Ltd., and Volvo Group among other industry leaders. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure, ORBCOMM’s low-cost and reliable two-way data communications products and services track, monitor and control mobile and fixed assets in four core markets: commercial transportation; heavy equipment; industrial fixed assets; and marine/homeland security. The Company’s products are installed on trucks, containers, marine vessels, locomotives, backhoes, pipelines, oil wells, utility meters, storage tanks and other assets. ORBCOMM is headquartered in Fort Lee, New Jersey and has a network control center in Dulles, Virginia. For more information, visit www.orbcomm.com.

Forward-Looking Statements

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future operations and are based upon management’s current estimates and projections of future results or trends. Although we believe that our plans and objectives reflected in or suggested by these forward-looking statements are reasonable, we may not achieve these plans or objectives. Our actual results may differ materially from those projected as a result of certain risks and uncertainties. These risks and uncertainties include, but are not limited to: the substantial losses we have incurred and expect to continue to incur; demand for and market acceptance of our products and services and the applications developed by our resellers; loss or decline in business from the Asset Intelligence division of General Electric Company (“GE”), value-added resellers, or VARs, and international value-added resellers, or IVARs; loss or decline or slowdown in growth in business of any of the specific industry sectors the Company serves, such as transportation; litigation proceedings; technological changes; pricing pressures and other competitive factors; the inability of our international resellers to develop markets outside the United States; satellite launch failures, satellite launch and

construction delays and cost overruns and in-orbit satellite failures or reduced performance; the failure of our system or reductions in levels of service due to technological malfunctions or deficiencies or other events; our inability to renew or expand our satellite constellation; financial market conditions and the results of financing efforts; political, legal regulatory, governmental, administrative and economic conditions and developments in the United States and other countries and territories in which we operate; changes in our business strategy; and the other risks described in our filings with the Securities and Exchange Commission. Unless required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
