TS 300
Wireless temperature sensor.

Hassle-free temperature sensing for industrial cold chain monitoring applications.

ORBCOMM’s TS 300 wireless temperature sensor helps ensure the integrity of temperature-sensitive cargoes, such as refrigerated or frozen foods and pharmaceuticals, as they move along the supply chain.

Used with the ORBCOMM® AG 400, ST 9100 or GT 1200 series, the sensor provides both general cargo area temperature and multi-zone monitoring in refrigerated trailers and trucks independent of the refrigeration unit.

**Precision and Compliance**
Temperature sensors allow truck and trailer temperature to be measured independent of the refrigeration unit. Sensors can be placed in multiple compartments of the truck/trailer to achieve more precise temperature monitoring and meet regulatory compliance.

**Hassle-free installation and maintenance**
Wireless connectivity makes installation quick and easy since wiring is not required. The wireless sensor eliminates maintenance and repair costs as there are no wires that might be damaged during day to day operations that would necessitate repair or replacement of the sensor. Low operational costs make the wireless sensor ideal for deployment across large fleets.

**Ruggedized**
The IP67-rated TS 300 is built to withstand harsh operating environments that include dust, humidity, water, shock and vibration, for reliable reporting in all conditions.

**Long service life**
The TS 300 delivers a minimum of 5 years of reporting without the need for maintenance or replacement.

**Wireless temperature monitoring**
**Independent of refrigeration unit**
**Helps maintain cold chain compliance**
**Ruggedized, versatile and accurate**
**Part of a comprehensive solution**
**Quick installation**
**Long battery life**
Compatibility
• AG 400
• ST 9100
• GT 1200 series

Environmental
• Operating Temperature: -40 °C to +85 °C
• Dust and water ingress: IP67
• Vibration: SAE J1455 (Sec 4.10.4.2 figures 6-8)
• Shock: MIL-STD-810G (Sec 516.6 procedure I, Section 2.3.2c)

Accuracy
• ± 0.5 °C from -40 °C to 85 °C

Communications
• Bluetooth Low Energy (BLE) version 4.0
• Low power, short range protocol using 2.4GHz band

Certification and compliance
• CE Mark:
  » EN 301 48917
  » EN 301 489-1
  » EN 62638
• FCC regulation 47 CFR 15
• Industry Canada:
  » ICES-003
• RoHS
• WELMEC 7.2\(^1\)
• GAMP 5\(^1\)

1: When used in combination with the Eurosca MX2

Power
• Lithium battery with 1000 mAh capacity
• Up to 5 years of operation

Mechanical
• Dimensions: 102 mm x 64 mm x 15 mm
• Weight: 97 g

Ordering Codes
Part Number: ST100643-001

ORBCOMM is a global leader and innovator in the industrial Internet of Things, providing solutions that connect businesses to their assets to deliver increased visibility and operational efficiency. The company offers a broad set of asset monitoring and control solutions, including seamless satellite and cellular connectivity, unique hardware and powerful applications, all backed by end-to-end customer support, from installation to deployment to customer care. ORBCOMM has a diverse customer base including premier OEMs, solutions customers and channel partners spanning transportation, supply chain, warehousing and inventory, heavy equipment, maritime, natural resources, and government. For more information, visit www.orbcomm.com.
