

GENSCAPE SELECTS ORBCOMM FOR SATELLITE AIS SERVICE

Provides extensive AIS data and comprehensive global coverage to Genscape customers

Rochelle Park, NJ, June 13, 2016 – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) and Internet of Things (IoT) solutions, today announced that it will provide its satellite AIS data to Genscape, a leading global provider of energy information for commodity, shipping and financial markets. ORBCOMM’s extensive [AIS data](#) will be utilized by customers of Genscape’s value added [AIS-based solutions](#).

Through its second generation constellation of [low-Earth orbit \(LEO\) satellites](#), ORBCOMM provides [AIS data services](#) to assist in [vessel tracking](#) and improve maritime safety for government and commercial customers worldwide. ORBCOMM’s advanced [satellite network](#) provides revisit rates of eight to fifteen minutes over most of the world with average vessel reporting latency of just under ten minutes worldwide and as short as one minute in many areas. Coupled with an established and robust network operations and global ground infrastructure, ORBCOMM provides unsurpassed data services.

“We are very pleased to be selected by Genscape as a preferred industry partner for satellite AIS data services,” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “ORBCOMM’s AIS service provides the most comprehensive global coverage and the highest refresh rates of any satellite-based AIS data system. We look forward to helping Genscape deliver an even greater level of service to its customers by offering a complete situational picture of vessel activity worldwide.”

“Genscape is committed to providing world-class products and services that enable transparency and actionable decision making for participants in global shipping, commodities and energy supply chains,” said Matthew Burkley, Chief Executive Officer of Genscape. “Our partnership with ORBCOMM is reflective of this mission, as it expands our customers’ access to Genscape’s market-leading terrestrial AIS coverage alongside ORBCOMM’s resilient, reliable and comprehensive satellite AIS data to provide real-time visibility into ship movements anywhere on the globe.”

About ORBCOMM Inc.

ORBCOMM Inc. (Nasdaq: ORBC) is a leading global provider of Machine-to-Machine (M2M) communication solutions and the only commercial satellite network dedicated to M2M. ORBCOMM’s unique combination of global satellite, cellular and dual-mode network connectivity, hardware, web reporting applications and software is the M2M industry’s most complete service offering. Our solutions are designed to remotely track, monitor, and control fixed and mobile assets in core vertical markets including transportation & distribution, heavy equipment, industrial fixed assets, oil & gas, maritime, mining and government. In addition, ORBCOMM provides Automatic Identification System (AIS) data services for vessel tracking to improve maritime safety to government and commercial customers worldwide.

With nearly 20 years of innovation and expertise in M2M, ORBCOMM has more than 1.6 million subscribers with a diverse customer base including premier OEMs such as Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery Co., Ltd., John Deere, Komatsu Ltd., and Volvo Construction Equipment, as well as end-to-end solutions customers such as C&S Wholesale, Canadian National Railways, CR England, Hub Group, KLLM Transport Services, Marten Transport, Swift Transportation, Target, Tropicana, Tyson Foods, Walmart and Werner Enterprises.
