ORBCOMM Wins 2021 IoT Breakthrough Award for M2M Vehicle Telematics Company of the Year

1/12/2021

Recognized for developing the next-gen ORBCOMM Platform and providing fleet customers with a complete view of all asset types and unparalleled processing power and bandwidth

ROCHELLE PARK, N.J., Jan. 12, 2021 (GLOBE NEWSWIRE) -- ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Internet of Things (IoT) solutions, today announced that it has been named as the M2M Vehicle Telematics Company of the Year by the 5th Annual IoT Breakthrough Awards program, which showcases technologies and companies that drive innovation and exemplify the best in IoT technology solutions across the globe.

ORBCOMM was recognized for its innovation in developing the next-generation **ORBCOMM Platform**, which provides fleet customers with a single, unified view of all asset types, deep data insights and unparalleled processing power and bandwidth. The ORBCOMM Platform allows customers to seamlessly track, monitor and control all of their transportation assets in one place – from **reefers, dry trailers, trucks, to chassis, dry and refrigerated containers** – on the road, rail and at sea. The scalable platform can accommodate any size of operation, whether the customer has one or 100,000-plus assets, and integrates with wired and wireless sensors for fuel, doors, cargo, temperature and more for maximum visibility. The new platform's capacity has been expanded exponentially to process more than 100,000 messages per second, which is an increase of over 1,000 times in message throughput over legacy systems. With the ORBCOMM Platform's increased processing capability, customers can continue to expand their deployments, access a higher level of visibility and enable more sophisticated solutions in a 5G, sensor-enabled IoT ecosystem.

"ORBCOMM continues to focus on innovation to meet the evolving needs of our customers and the industrial markets we serve, and we're pleased that our efforts to create a versatile, scalable and highly advanced telematics platform for the transportation industry have been recognized with the prestigious IoT Breakthrough's M2M Vehicle Telematics Company of the Year Award," said Craig Malone, ORBCOMM's Executive Vice President of Product Development. "The ORBCOMM Platform makes it easier and more efficient for fleet customers to gain a complete

view across all their asset types, actionable data, faster response time, greater capacity, as well as more real-time visibility – all in one place, from one provider, with one sign-on.”

“The age of connected technologies and Internet of Things has officially arrived, with organizations realizing that investing in connected technologies is no more a luxury, but a necessity for business continuity, growth and success,” said James Johnson, Managing Director at IoT Breakthrough. “IoT is disrupting both the consumer market, including retail, healthcare, and connected home tech, as well as the industrial sector, including transportation, water, oil and gas, agriculture, manufacturing and more – and we are absolutely thrilled to recognize the breakthrough IoT industry innovators in our 5th annual awards program.”

About ORBCOMM Inc.

ORBCOMM (Nasdaq: ORBC) is a global leader and innovator in the industrial Internet of Things, providing solutions that connect businesses to their assets to deliver increased visibility and operational efficiency. The company offers a broad set of asset monitoring and control solutions, including seamless satellite and cellular connectivity, unique hardware and powerful applications, all backed by end-to-end customer support, from installation to deployment to customer care. ORBCOMM has a diverse customer base including premier OEMs, solutions customers and channel partners spanning transportation, supply chain, warehousing and inventory, heavy equipment, maritime, natural resources, and government. Forward-Looking Statements

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied

by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. In addition, specific consideration should be given to various factors described in Part I, Item 1A. "Risk Factors" and Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our Annual Report on Form 10-K, and other documents, on file with the Securities and Exchange Commission. The Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.
