

ORBCOMM LAUNCHES NEXT GENERATION SOLAR-POWERED TRACKING SOLUTION FOR DRY TRAILERS AND CONTAINERS

New feature-rich, cost-optimized product line streamlines fleet operations and improves asset utilization

Rochelle Park, NJ, March 11, 2019 – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) and Internet of Things (IoT) solutions, today announced that it has launched its [next generation solar-powered GT 1200 series](#) of devices as part of a comprehensive telematics solution that includes multiple sensor options, user-friendly applications and reliable cellular and optional satellite connectivity for hassle-free [trailer and container tracking](#).

The GT 1200 series is an evolution of ORBCOMM’s industry-leading GT 1100 product line and includes an enhanced, high-sensitivity solar panel that charges up to 20 times faster than its predecessor even without direct sunlight, resulting in up to three times more messages per day for increased asset utilization. The compact devices are ruggedized to withstand extreme conditions, require no battery changes for up to 10 years and include built-in tamper and impact detection. The GT 1200 series also can easily be configured with ORBCOMM’s integrated cargo sensor and other wireless sensors. With a new streamlined design, the devices can be installed externally on all cargo asset types in about 10 minutes, even when the asset is full, making customer deployments quick and efficient with minimal disruption to their operations.

“ORBCOMM’s new GT 1200 series is part of our comprehensive innovation plan to enhance nearly all our products to expand our existing capabilities and provide customers with advanced technology and unmatched value,” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “With expanded support for wireless sensors, an improved solar panel and safer, faster field installation, the GT 1200 product line features the latest in asset tracking technology and offers incremental benefits to our transportation customers looking to streamline their fleet operations and gain efficiencies.”

For more information about ORBCOMM’s new GT 1200 product line, please click [here](#) or visit ORBCOMM in Booth 107 at the Truckload Carriers Association Annual Convention at the Wynn Las Vegas Resort from March 10-13, 2019.

About ORBCOMM Inc.

ORBCOMM (Nasdaq: ORBC) is a global leader and innovator in the industrial Internet of Things, providing solutions that connect businesses to their assets to deliver increased visibility and operational efficiency. The company offers a broad set of asset monitoring and control solutions, including seamless satellite and cellular connectivity, unique hardware and powerful applications, all backed by end-to-end customer support, from installation to deployment to customer care.
