

## **ORBCOMM ANNOUNCES INTERNATIONAL EXPANSION WITH NEW REGULATORY AUTHORIZATION IN ECUADOR**

**Fort Lee, NJ, April 26, 2011** - ORBCOMM Inc. (Nasdaq: ORBC), a global satellite data communications company focused on two-way Machine-to-Machine (M2M) communications, today announced that its two-way satellite data communications services are now authorized in Ecuador.

“The addition of Ecuador to the growing list of countries where ORBCOMM services are authorized is yet another confirmation of our commitment to international growth,” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “This new market will allow ORBCOMM to expand our business in several targeted industries such as heavy equipment, transportation, mining and industrial fixed assets, which will significantly benefit from ruggedized telematics solutions enabled by ORBCOMM’s global network.”

“This important authorization in Ecuador now completes our regulatory approvals throughout the chain of Andean-based countries in South America, paving the way for our Original Equipment Manufacturers (OEMs) to begin using ORBCOMM’s satellite service to track and monitor valuable assets deployed in Ecuador,” explained Christian Allred, Senior Vice President of International at ORBCOMM. “We also look forward to expanding our Latin American business with the addition of new local M2M solution providers and integrators.”

International expansion is a key component to future growth at ORBCOMM as it provides our customers, many of which already have distribution in these countries, a new outlet to provide ORBCOMM-enabled services. It also creates an opportunity for new sales channels with local providers.

ORBCOMM continues to expand its global authorizations, which now total over 100 countries and territories.

### **About ORBCOMM Inc.**

ORBCOMM is a leading global satellite data communications company, focused on Machine-to-Machine (M2M) communications. Its customers include Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery, Hyundai Heavy Industries, Asset Intelligence a division of I.D. Systems, Inc., Komatsu Ltd., Manitowoc Crane Companies, Inc., and Volvo Construction Equipment among other industry leaders. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure, ORBCOMM’s low-cost and reliable two-way data communication services track, monitor and control mobile and fixed assets in four core markets: commercial transportation; heavy equipment; industrial fixed assets; and marine/homeland security. ORBCOMM based products are installed on trucks, containers, marine vessels, locomotives, backhoes, pipelines, oil wells, utility meters, storage tanks and other assets. ORBCOMM is headquartered in Fort Lee, New Jersey and has its network control center in Dulles, Virginia. For more information, visit [www.orbcomm.com](http://www.orbcomm.com).

### **Forward-Looking Statements**

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These risks and uncertainties include but are not limited to the risks described in our filings with the Securities and Exchange Commission. Unless required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. For more detail on these and other risks, please see our "Risk Factors" section in our annual report on Form 10-K for the year ended December 31, 2010.
